Ghaziabad, Uttar Pradesh, India

PROFESSIONAL SUMMARY

Dedicated Computer Science student (8.5 CGPA) specializing in Artificial Intelligence and Machine Learning. Proven ability in developing predictive models, full-stack web applications, and cloud-based data pipelines. Strong foundation in AWS, data analytics methodologies, and team leadership, with a track record of executing impactful open-source contributions and managing large-scale collegiate technical events.

EDUCATION

KIET Group of Institutions	Ghaziabad, India
Bachelor of Technology (B.Tech) in Computer Science & Engineering (AI & ML)	2024 – 2028
CGPA: 8.5 (Through 2nd Year)	
Focus areas: Data Structures & Algorithms (DSA), Machine Learning, Cloud Architecture, Full-Stack Workflows.	
Maples Academy (PCM)	Deoband, India
Intermediate (Class 12th): 92% High School (Class 10th): 97%	Passed 2023

TECHNICAL SKILLS

Languages: Python, C++, Dart, C, HTML5, CSS3, JavaScript
Machine Learning & Data Science: PyTorch, TensorFlow, Keras, Scikit-Learn, Pandas, NumPy, Exploratory Data Analysis, Predictive Modeling
Cloud & Data Engineering: Amazon Web Services (AWS), AWS Glue, Amazon Kinesis, AWS Lambda, Amazon S3, Amazon Redshift
Frameworks & Web Technologies: MERN Stack (MongoDB, Express.js, React, Node.js), Django, Flutter, Three.js, Unity Engine
Tools & Workflows: Git, GitHub, Linux/Ubuntu, VS Code, PyCharm, Jupyter Notebooks, Power BI, Tableau, Performance Dashboards

EXPERIENCE

Bluestock Fintech <i>Data Analyst Intern</i>	Jun 2026 – Aug 2026	Remote
- Conducted advanced financial and risk analytics, calculating Historical VaR (95%) and CVaR across 40+ investment schemes. - Tracked and visualized performance metrics, including 90-day rolling Sharpe ratios for key mutual funds, and analyzed sector concentration using the Herfindahl-Hirschman Index (HHI). - Executed investor cohort and SIP continuity analysis to flag at-risk accounts, developing a risk-based fund recommendation script to map investors to suitable funds. - Extracted actionable business insights and generated automated reports using Jupyter Notebooks, Pandas, and Python.		
GirlScript Summer of Code (GSSoC '26) <i>Open Source Contributor</i>	May 2026 – Present	Remote
- Collaborated within decentralized engineering teams to solve bugs and scale features for large open-source codebases. - Implemented feature updates and architecture patches across cross-platform frameworks including Django and Flutter. - Utilized advanced Git operations and branch management strategies to execute clean, production-grade Pull Requests. - Engaged in collaborative testing, peer reviews, and code-standard compliance with Project Admins prior to branch merges.		

- Engineered and deployed 4 end-to-end ML pipelines covering healthcare diagnostics, predictive analytics, and pricing.
- Built a Diabetes Prediction Model using Logistic Regression on PIMA dataset; attained 90% classification accuracy utilizing Pandas for robust data cleaning and feature preprocessing.
- Constructed Car Price Predictor using OneHotEncoder and iterative optimization over 1,000+ variants to maximize R-squared scores.
- Developed IPL Score Prediction System evaluating Linear, Ridge, Lasso, and Random Forest Regressors using Matplotlib/Seaborn.

NOTABLE PROJECTS

Meteor Madness - NASA Space Apps Challenge 2025 | *Python, Data Processing*

- Architected a data-driven space science simulation platform with cross-functional team members.
- Competed against regional cohorts to place within the Top 15 out of 35 competing teams in the region.

Riva AI Chatbot Integration | *Python, Computer Vision*

- Co-developed a student AI assistant featuring automated face recognition and dynamic QA response engines.
- Successfully demonstrated live multi-modal capabilities during official institutional club inaugurations.

CERTIFICATIONS

- **AWS Certified Data Engineering - Associate (DEA-C01):** Covers AWS Glue, Kinesis, Lambda pipelines, and IAM governance.
- **AWS Certified Cloud Practitioner (CLF-C02):** Covers foundational cloud architecture, cloud security, and cost-optimization.

LEADERSHIP & EXTRACURRICULARS

NextGen Supercomputing Club @ KIET | *Treasurer*

Nov 2025 – Present

Ghaziabad, India

- Managed a 50,000 INR budget allocation for a three-day inter-college hackathon and AI summit, formulating detailed fiscal strategies and operational metrics.
- Executed a strategic outreach plan targeting technology startups via email and LinkedIn to successfully secure corporate event sponsorships.
